Our engineers have a high academic qualifications and research experience. We obtain several technology patent regarding with gas appliances. We can manufacture the mold independently, this will help us develop the newproducts quickly and getting more advantages. With strict quality testing procedure, we can guarantee the safety of our products.

N&L FURNITURE

Every N&L gas grill is built to provide unparalleled cooking performance delivering great barbecue flavor. You can sear steaks to perfection, rotisserie cook poultry and roasts. Every part of the cooking system is designed and engineered for giving you the ability to cook almost anything on your grill in any style. We devote to combine the comfort of an indoor kitchen range with all the benefits of being outside. N&L help create the ultimate backyard getaway.

Amazing Heat Retention

Made from high-grade stainless steel, these durable double-walled lid provide excellent heat retention and long lasting durability. Visible window and thermometer ensure even heat and heat retention for precise control.

Unmatched Performance

High quality and durable stainless steel burners and rear infrared burner are designed for heavy-duty "workhorse" grills. These cooking system provides superior heat distribution across the entire surface of the grill.

Perfect Temperature

Valve with 180 degree control knob give you infinite heat control, allowing you to set your grill to the perfect temperature for searing, roasting or slow cooking.

Stylish Illumination

Proper lighting creates drama, style and function. LED front panel lighting fetches eye-catching flair, while interior halogen lighting provides needed illumination for grilling regardless of the time of day.

Performance.

The Six Burners Series

The N&L Six burner series is perfect for large banquet events. These premium, heavy-duty grills are designed for performance, durability and exceptional results. Complete with interior lights, LED knobs, rear infrared burner, six #304 stainless steel burners, rotisserie set and flame thrower valves, you'll have the confidence these grilling machines are ready to sear the perfect steak.

Feast.

The Heavy Duty Series

In the canon of cooking whole animals, few ways are more fun, more drool-inducing, more catchy to the eye than spit roasting. Roast whole lamb is a classic specialty of many cuisines. Whether its Superbowl Sunday or a lazy afternoon in the backyard, roasting a whole lamb on an outdoor grill is fun and relaxing. Use The N & L Heavy Duty Grills create this type of feast in your own backyard, and share a meal of flesh for your friends and family.

800°.

Steak & Pizza Maker Series

The N&L 800° Steak Grill let you experience steakhouse style grilling in your own backyard! Its unique and efficient rectangular, front-loading open design accommodates OverFire radiant burners which are housed in the top of the grill. It is these OverFire radiant burners that allow the grill to get to 800°, a temperature they can achieve in just three minutes. This more direct heating allows for higher steak-searing temperatures, faster cooking and it takes the food-drying air out of the equation, all reasons high-end steakhouses use this technology.

COOLING HOLE
